

## INTRODUCING THE PARENT PORTAL POWER SCHOOL HAS JUST GOTTEN EASIER TO USE

Great News!!!! Powerschool remains the #1 way that parents can get involved with their children's school work. Powerschool provides a method for parents to monitor homework completion, academic progress, and upcoming projects. There is a communication center where you can even send e-mails to your child's teacher!

Now Powerschool has gotten even **EASIER** to use. Many parents have asked for one password for their family. In the past, each child had a unique password that was required to access the Powerschool gradebook. Now, each family will have only ONE password. The parent simply logs in and check each child's progress by clicking on his/her name. It can't get much easier than that!

Within the next week or two, parents will receive directions in the mail (secondary) or brought home by students (elementary). Follow the directions on the hand out and in just a few easy steps, you will be ready for the 2010-11 school year.

We want all of our parents to use this powerful system. If you experience any problems at all, please contact Dawn Wurzer or Mr. Stewart at 842-2263. They will be happy to assist you.
